

Infections

The following data represents healthcare associated infections (HAI). HAI are infections that are not recognized as present on admission to the hospital. The Standardized Infection Ratio (SIR) is a measure used to compare an individual facilities performance to expected performance based on national averages as determined by the National Health Safety Network (NHSN). A SIR greater than 1 indicates that the number of infections observed is greater than number of infections expected. A SIR less than 1 indicates there were fewer infections than expected. Healthcare facilities report infections and procedure counts to the Centers for Disease Control through NHSN.

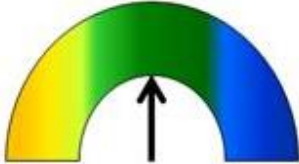

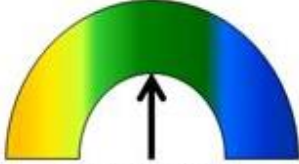

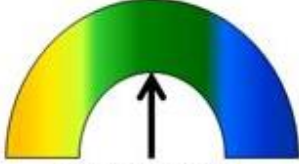

Abdominal Hysterectomy

Time Period	Procedure Count	Infection Count	SIR	National Comparison
August 2012-July 2013	120	2	1.3	 Meets Standards
August 2013-July 2014	100	2	1.4	 Meets Standards
August 2014-July 2015	84	2	2.2	 Meets Standards
August 2015-July 2016	81	1	1.4	Comparison Not Yet Available

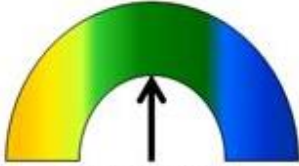

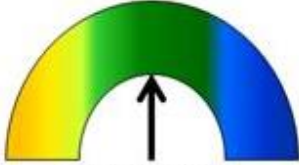

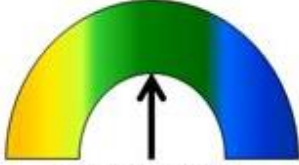

Breast Surgeries

Time Period	Procedure Count	Infection Count	SIR	National Comparison
August 2012-July 2013	80	1	1.2	 Meets Standards
August 2013-July 2014	82	2	2.4	 Meets Standards
August 2014-July 2015	53	2	4	 Meets Standards
August 2015-July 2016	43	3	6.6	Comparison Not Yet Available

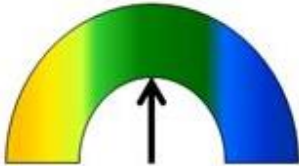

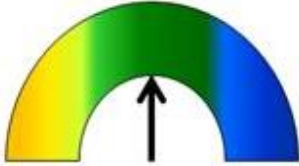

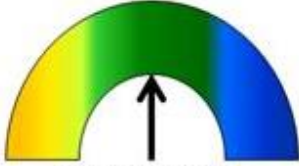

Colon Surgery

Time Period	Procedure Count	Infection Count	SIR	National Comparison
August 2012-July 2013	41	2	.8	 Meets Standards
August 2013-July 2014	29	0	0	 Meets Standards
August 2014-July 2015	41	4	1.8	 Meets Standards
August 2015-July 2016	42	3	1.5	Comparison Not Yet Available

Hip Replacement

Time Period	Procedure Count	Infection Count	SIR	National Comparison
August 2012-July 2013	68	0	0	 <p>Meets Standards</p>
August 2013-July 2014	77	0	0	 <p>Meets Standards</p>
August 2014-July 2015	70	0	0	 <p>Meets Standards</p>
August 2015-July 2016	80	0	0	Comparison Not Yet Available

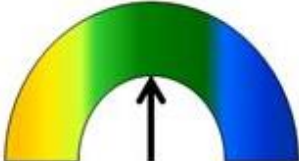

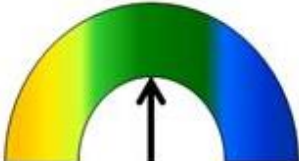

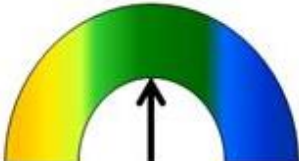

Knee Replacement

Time Period	Procedure Count	Infection Count	SIR	National Comparison
August 2012-July 2013	137	1	1	 <p>Meets Standards</p>
August 2013-July 2014	115	1	1	 <p>Meets Standards</p>
August 2014-July 2015	168	0	0	 <p>Meets Standards</p>
August 2015-July 2016	136	0	0	Comparison Not Yet Available

Percutaneous Coronary Intervention (PCI)

Time Period	Procedure Count	Infection Count	SIR	National Comparison
August 2012-July 2013	59	0	Not Rated	No Comparison Available
August 2013-July 2014	115	0	Not Rated	No Comparison Available
August 2014-July 2015	168	0	Not Rated	No Comparison Available

Central Line Associated Blood Stream Infections

Time Period	Central Line Days	Infection Count	Infection Rate	National Comparison
August 2012-July 2013	345	0	0	 <p style="text-align: center;">Meets Standards</p>
August 2013-July 2014	341	0	0	 <p style="text-align: center;">Meets Standards</p>
August 2014-July 2015	436	1	2.9	 <p style="text-align: center;">Meets Standards</p>
August 2015-July 2016	865	0	Not Rated	No Comparison Available
